

- 3 x Clip adapter (Art. No.: 36227)

- 1 x Wheel axle 60 (Art. No.: 35065)

- 1 x Holder

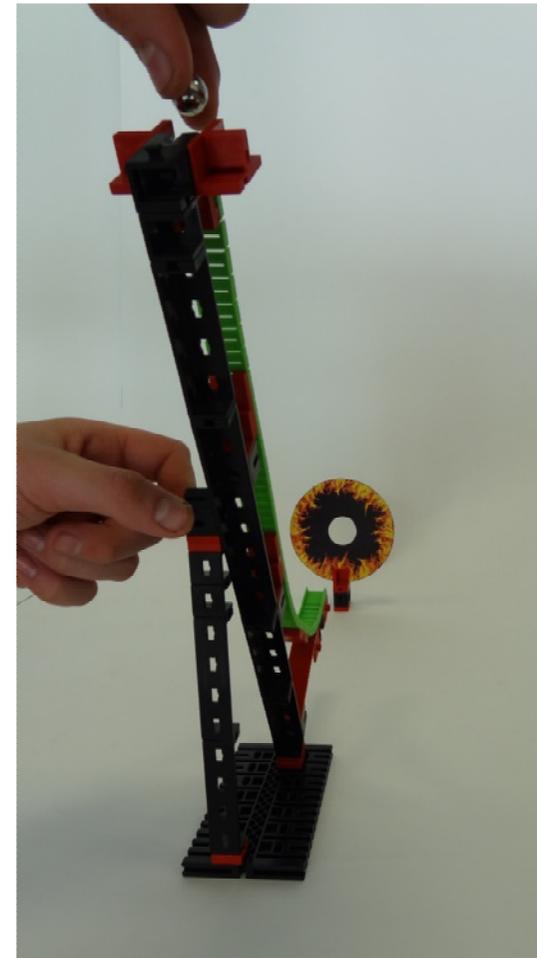

- 4x Game templates

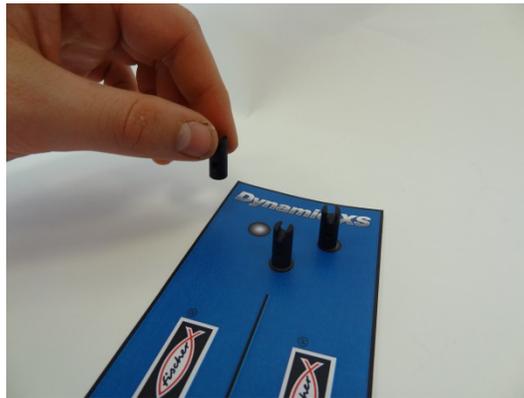

- 1) Fix the cut out ring of fire in the holder
- 2) Position your ball obstacle course

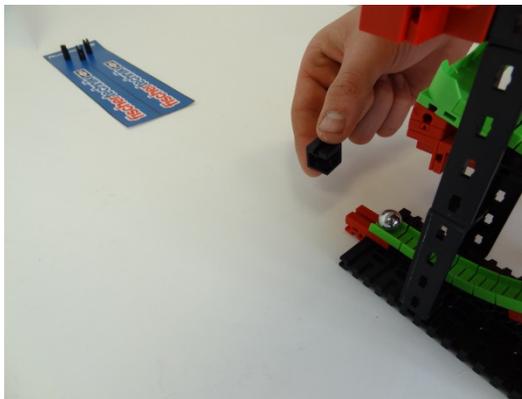

- 3) Set the ball rolling and try to hit the hole

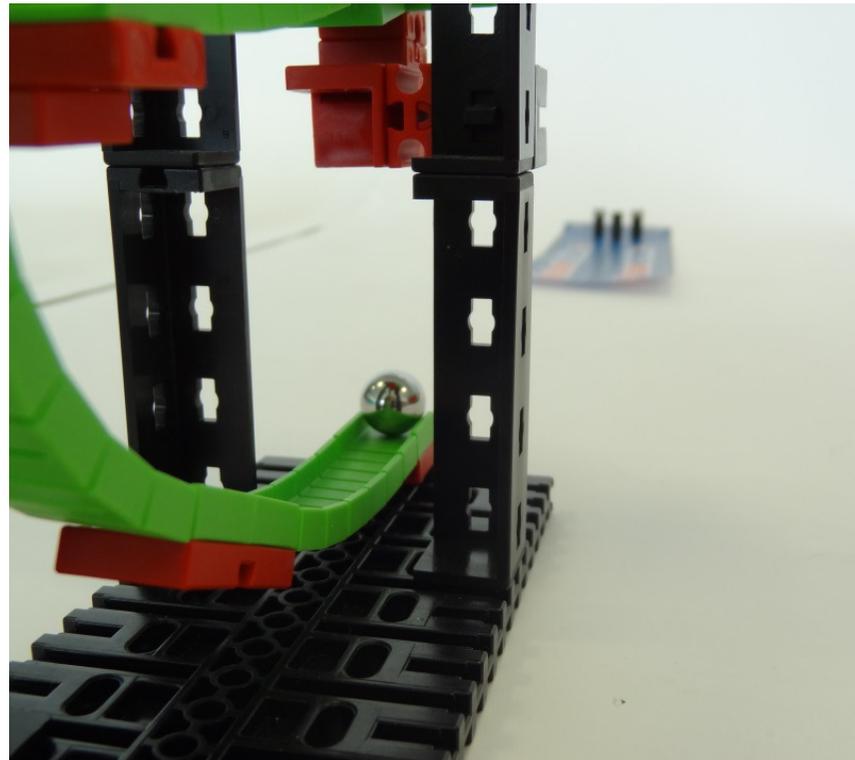

- 1) Put the 3 clip adapters on the gray dots of your skittles alley

- 2) Remove the black building block from your ball obstacle course

- 3) Position your ball obstacle course and try to knock the skittles down with the ball

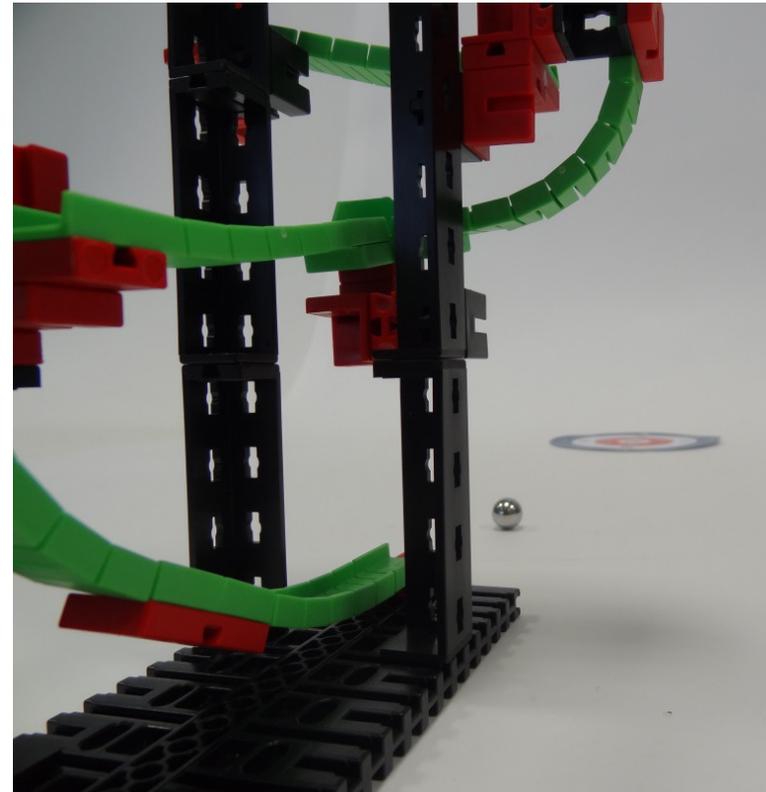

- 1) Put the target on the floor at a sufficient distance from your ball obstacle course

- 2) Remove the black building block from your ball obstacle course

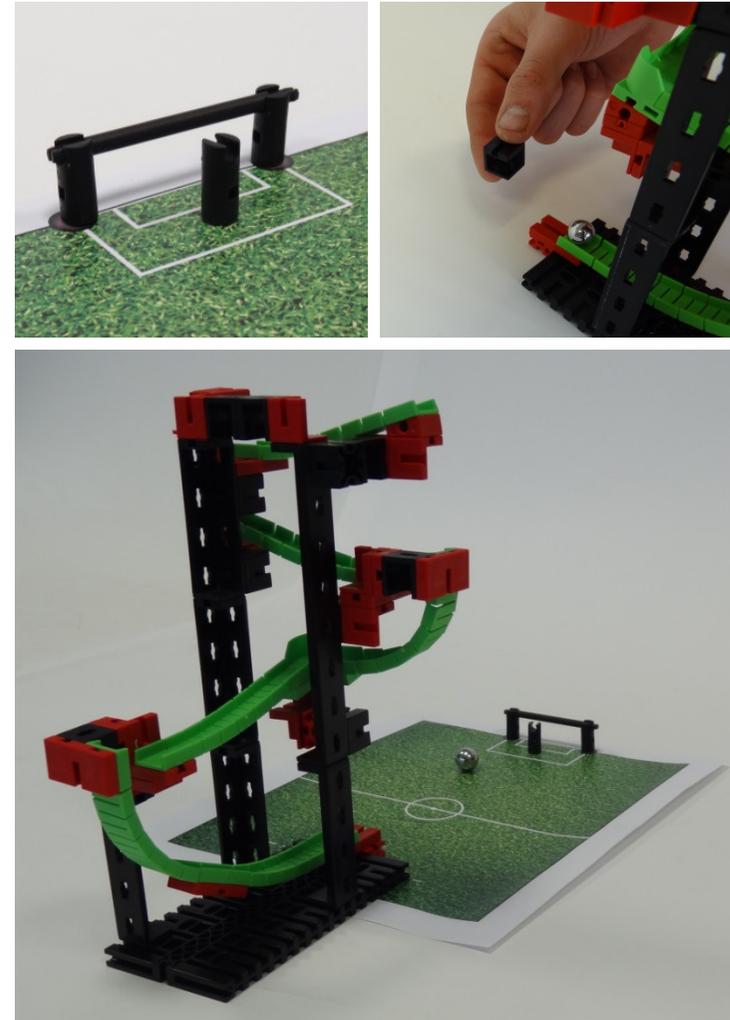

- 3) Position your ball obstacle course and try to get the ball to stop on the 10

## It's a goal!

- 1) Make the goal from the wheel axle and the two clip adapters
- 2) The other clip adapter is your goalkeeper
- 3) Remove the black building block from your ball obstacle course
- 4) You can move your ball obstacle course along the dotted line
- 5) Off you go: set the ball rolling and try to score a goal!

Dear fischertechnik Fan,

You're sure to want to try out all the game templates. Why don't you make your own video clip and send us a YouTube video link with your craziest ball obstacle course models or experiments by e-mail ([info@fischertechnik.de](mailto:info@fischertechnik.de)). Please state "Dynamic-XS" in the subject line. Top-speed, simply huge, simply crazy, with looping or a jump ..... we can't wait!

We'll then link the best video clips to our YouTube channel "fischertechnikTV".

Have fun with the fischertechnik ball obstacle course!

Your fischertechnik team
